

Guillermo Colls – English as a Second Language

Hired full time in 2008, Guillermo Colls is still here! He designed the template curriculum for the BOOST Pathway, which is the Accelerated Pathway in ESL. Early numbers now indicate that some students in BOOST are completing their ESL courses more than four times faster than they did in traditional ESL classes. He serves as Chair of the ESL Department. He has also served for eight years in the Curriculum Committee and the Academic Senate. Guillermo is known for his total lack of sense-of-humor. He also lies, but never to the Senate! He enjoys money and fame, although he has neither.
